This change in the has made many shrewd trad-that a reaction of some imp coming within the next week, Friday and Saturday, perhaps Monday or Tuesday, but very Monday or Tuesday, but very surely before very long. Intrinsically the situation is excellent, but technically a decline
is indicated, these people say. The outlook is good for today's market. It is
probable that there will be recoveries
on covering of short lines put out yesterday. The people that look for a reaction
advise selling some long riock at least
on bulges today and the latter days of
the week.

It is not believed that this break, if it comes, will extend much beyond 5 points, but perhaps so much of a tumble should be expected. Shrewd people will buy stocks on the decline on good mar-

gins, confident of a resumption of the buil movement later in the present year. One reason why no great break is looked for, when usually a slump would have been in-evitable before this, is in the fact that a large part of the recent buying has been a large part of the recent buying has been for investment by the largest interests, which will not sell out for a long time to come, regardless of factuations. Large blocks of stock have been bought for cash even, as is shown by the condition of the money market, the small increase in the lean accounts in the banks.

One of the indications of a coming reces-Hampered by Poor Wire Service.

of the market than were the heavier transactions in the railway list.

Little or nothing could be picked out of the day's circumstances which would directly account for either the occasional fits of buoyancy or depression. In fact, such changes as appeared seemed to follow technical causes entirely, and while the more extreme movements were, as

are hardly to be disputed. The company is doing an excellently prefitable business. and its physical condition is superior to London's attitude toward this market was again somewhat surprising, as the dealings not only fell far below the volume that had been looked for, but on but ance resulted in sales which were estimated at between 20,000 and 20,000 shares. Operations for foreign account were on a dividend basis in the near future without a doubt. The present price of the stock is low, considered as an investment, though it is not to be doubted that it may go off several points with the general mar-ket if there is to be a break.

freely, both on account of London's failure to take the stand expected in this market, and also because they thought they detected appearances of what is described as inside liquidation. This latter comment upon the market, it may be noted, has appeared with unfailing regularity each day for the past three weeks.

The market opened strong, being influenced in that direction by the substantial advances shown in the London market for American stocks. With the exception of a few of the specialties and industrials the general reaction set in. As already noted, speculative sentiment seemed to be greatly influenced by the course of two or three stocks. Thus the very unsettled market for the American Steel and Wire shares served to chill sentiment, and the reaction and the preferred were no developments of importance. The carnings statements were the most interesting matters discussed in the street. The Atchison monthly report of gross and net earnings was published and, as usual, it was a fine showing. The increase in gross was \$550,803, and the increase in gross was \$550,803, and the increase in net \$55,2,604. The company is earning between 6 and 7 per cent on the common stock in addition to all fixed charges and the 5 per cent dividend on the preferred. This fine business will increase instead of decreasing if all the indications are to be relied on. The officers of the company are quoted as most enthusiastic buils on its securities. During the morning yesterday both the common and the preferred were buoyant, but there is to be abreak. ant, but later in the day they declined with the general market. Wire common declined to 42 1-4 early in the day, but was supported with some persistence between 42 and 43 and finally advanced, showing small net gains for the day. The other steel securities held their own, but showed no buoyancy. They have been held back by Wire undoubtedly.

KURZ'S DEATH AN ACCIDENT.

Interment to Take Place at Carroll ton, Md.

The coroner's jury which was sworn over the body of William Kurz Monday evening, met at No. 6 police station yesterday afternoon, and after hearing the evidence in the case, returned a verdict, finding that death was due to accident. Kurz, who was a native of Carrollton, Md., as a messenger in the Government Print-ing Office. Last Friday Kurz entered the elevator, end just as Conductor Harry Mat-next day evidence of paralysis was apparthews had started upward, Kurz dropped a ent, and on Saturday his condition became bundle, which fell from the elevator into the shaft below. Kurz left the elevator at him to the Providence Hospital, where, afthe second floor, as Matthews supposed, to deliver some proof sheets, but instead, he went to the basement, entered the pit to get his bundle, and as he stooped to pick autopsy, and the death had resulted from up the bundle the counterweight struck shock, caused by a fracture of the skull. him in the back. The injured boy was removed to the Emergency Hospital, where he died shortly after 2 o'clock Monday

Dr. Glazebrook, the deputy coroper, who performed the autopsy, testified that he found the body badly crushed over the left hip, that the left pelvic bone was dislu-cated and fractured, and that the internal organs were badly congested. He further said that the injuries were of such a character as would be almost certainly fatal. Upon this testimony the verdict was based. The report of the jury was: "We, the jury, find that the said William W. Kurz evidence adduced that the said William W. Kurz's death was accidental." The funeral will take place this after-

Death of William B. Cox Due to His

Own Carelessness.

An inquest was held yesterday morning at the undertaking establishment of R. W. Barker, 612 Eleventh Street northwest, over the body of William B. Cox, and after hearing all of the evidence in the case, the jury returned a verdict that the accident was due to the victim's own carelessness. The body was removed last night to the former home of the deceased, on the Bladensburg Road, where the funeral services will be held this afternoon at 1:30 Mr. Cox, who was sixty-one years old,

was a gardener, and had lived in the District all of his life. From the testimony of the half dozen witnesses examined, it appears that Mr. Cox had boarded a City and Suburban car to go to his home, and before the car stopped at North Langdon he attempted to alight. He was thrown to the ground and when the correctors. he attempted to atight. He was thrown to the ground, and when the conductor of the car reached him he was unconscious. He revived, however, in a short time, and would have gone to his home without as-sistance if the railway employes had not urged that he visit a hospital. He re-ceived treatment at the Emergency Hos-pital, where the attending physicians con-sidered his injuries superfield. They of was nineteen years old, and was employed sidered his injuries superficial. They of-

THE MARRIAGE VOID.

Anna Hamilton Illegal.
